

LETTERS PATENT

A Living, Public Proclamation

DECLARATION OF VALUE

Each human being on earth is a living system and lawful HEIR OF CREATION.

Each HEIR OF CREATION is, by free will, a sovereign nation and self-governing.

HEIRS OF CREATION may join with other HEIRS OF CREATION, by free will, to form governing frameworks or tribes that align with group and individual values and customs.

CONSENT DECREE

The HEIRS OF CREATION do now acknowledge the value of human living systems to be unlimited.

The HEIRS OF CREATION, whose BEING is and has always been the value backing ALL mediums of exchange in commerce, do now acknowledge that each and every human living system is itself, by virtue of existence, the collateral for all currency.

The HEIRS OF CREATION do now acknowledge each human living system to be equal in value to every other human living system.

The HEIRS OF CREATION do now require custodians of value, such as BRICS, to acknowledge each HEIR OF CREATION as the ABSOLUTE value backing all currency.

The HEIRS OF CREATION, realizing that BRICS deems itself a funding bank & trust in administration of value, do now acknowledge HEIRS OF CREATION as the estates AND beneficiaries of Source's Creation.

The HEIRS OF CREATION, each as an estate of Creation AND beneficiary thereof, may by free will choice act as their own trustee.

HEIRS OF CREATION do make known that estates, trustees, and beneficiaries NEVER borrow from the trust or estate, but rather receive protection, education, and assistance therefrom.

The HEIRS OF CREATION do now present a temporary bridge measure designed to DEMONSTRATE human living systems AS value, and in doing so, retire the NECESSITY for REPRESENTATION of that value.

The HEIRS OF CREATION do now declare acceptable currency to be a certificate of exchange with: human signature, mark (such as "x"), thumb or finger print, electronic signature, seal, encryption key, retinal scan, or any other medium that denotes a human living system.

The HEIRS OF CREATION do now require financial centers to retain certificates of exchange bearing denotation of issuer as a human living system when presented.

HEIRS OF CREATION do now recognize that anyone is free to establish and accept provisional governance frameworks, by free will, through which self-governing bodies and individuals may do commerce.
